MEDIA RELEASE

ForTheRecord® (FTR) releases new versions of the FTR Gold® product line

The latest FTR Gold® family of products is the most compelling digital court recording solution available today

Phoenix, AZ, 30 June, 2008 — ForTheRecord (FTR), a leading provider of digital recording and content management solutions for judicial and public safety venues, today released new versions (v5) of the FTR Gold family of applications comprising of FTR Reporter™, FTR Log Notes®, FTR Monitor™ and TheRecord™ Player.

"FTR Gold has set the standard for digital court recording for the last 10 years, and the development of FTR's new Gold suite of products has been a dedicated effort to showcase the company's continued commitment to meeting the evolving needs of our core market and customer base," said Gunnar Light, Executive Vice President of FTR.

Developed to enhance the overall user experience, the FTR Gold v.5 suite of products delivers a range of tangible benefits such as improved efficiency and productivity, streamlined recording and note-taking processes and lower media storage costs – all whilst retaining the simplicity and ease-of-use that FTR products are known for. In addition to Microsoft Windows Vista® compatibility, FTR has incorporated several key features such as the ability to capture video, a consolidated interface for recording, note-taking and playback, an onboard CD-R and DVD-R burning engine and a brand new look and feel.

"The latest Gold family of products has been developed on a new platform which combines the optimal features from previous versions of FTR court products, while including a variety of desirable new options. With this new platform, FTR can more easily accelerate future product development in response to our customers' changing requirements," Mr Light said.

ENDS.
