

Official court content management and ordering—automated and transformed.

FTR Express Access eliminates manual and time-consuming processes associated with locating, managing, ordering, and distributing official court content, such as audio/video recordings, certified transcripts, and speech-to-text rough drafts.

This streamlined, online portal acts as a tool for workflow management, which encompasses:

- ✓ Requests for court content
- ✓ Efficient and streamlined processing of requests
- ✓ Archival of completed transcripts
- ✓ Secure payments
- ✓ Access managed by courts
- ✓ Allocation of transcript requests to transcribers and court reporting firms

Powered by **FTR Justice Cloud**, FTR Express Access offers enhanced functionality for justice administration.

Key Features.

- ✓ Easy-to-use interface streamlines the ordering process for official court content
- ✓ Simple upload and delivery process for transcript orders alerts court administration to review, approve, and process payments
- ✓ Jurisdiction-specific metrics provide visibility into volume, monthly/annual revenue, and on-time delivery
- ✓ Automatic bundling instantly delivers recordings and log notes to assigned court reporter or transcriber
- ✓ Transparent cost estimates and payment process
- ✓ Automated tracking of all aspects of transcript provision provides real-time status of orders and monitors user access of court recordings
- ✓ Streamlines communications between courts, transcribers, and ordering parties
- ✓ Ability to integrate with court managed vendors, including internal transcript providers, external providers, or a combination of both

For The Record Cloud Ecosystem.
