

Bring the power of FTR RealTime to any court proceeding with a portable audio kit.

Introducing the FTR RealTime Portable Kit. This compact technology package enables courts to access to FTR RealTime—and the all benefits of an instant, searchable speech-to-text record—without the associated time or expense of retrofitting a courtroom with audio equipment. This uniquely portable solution allows recording and speech-to-text technology to be directed where it's needed most.

Inclusions:

- ✓ Touchscreen laptop (preconfigured with FTR RealTime—includes one FTR Justice Cloud license)
- ✓ Audio mixer (eight-channel digital mixer with USB interface)
- ✓ Microphones (4-8) with weighted bases
- ✓ Custom case

The FTR RealTime Portable Kit:

- ✓ Facilitates near-immediate access to advanced recording and speech-to-text technology without adjustments to fixed infrastructure
- ✓ Requires only minutes to configure and deploy this unique technology in the courtroom
- ✓ Provides a significantly more cost-effective solution than permanently installed courtroom audio equipment
- ✓ Offers up to eight audio channels, configurable with custom labels for speaker attributed text
- ✓ Allows recording and speech-to-text technology to be used where needed
