

The future of court records is here— elevate your courtroom into the cloud.

FTR Justice Cloud is a complete, cloud-based solution for court records—delivering advanced capture, storage, playback, monitoring, speech-to-text, ordering, and accessibility.

More than a platform, FTR Justice Cloud is a strategic asset that enhances collaboration, reduces administrative burden, and accelerates the path to justice. By digitizing every proceeding into a searchable, shareable, and trackable record—and automating manual tasks—courts can operate faster, more efficiently, and with greater confidence.

Every innovation is built on a foundation of uncompromising security—because progress means nothing without trust.

- ✓ **Scalable Cloud Storage** – Flexible storage that grows with your court’s recording and speech-to-text needs
- ✓ **Support Court Staff** – Addresses stenographer shortages and high workloads
- ✓ **Seamless Integration** – Works with FTR Gold and other systems to unify legacy and cloud-based content
- ✓ **Accessible & Inclusive** – Supports ADA compliance
- ✓ **Maximum Security** – Compliant with NIST 800-53 r5, SOC 2 Type 2, CJIS

Key Features.

- ✓ Multi-channel, high-fidelity audio and HD video capture
- ✓ Automatic cloud replication, disaster recovery, and robust security with access controls and auditing
- ✓ Generate real-time speech-to-text synced to recordings
- ✓ Immediate search and playback for clarification and issue resolution
- ✓ Clearly identify speakers even during overtalk
- ✓ Multi-language detection across different talkers and audio channels
- ✓ Automatically annotate recordings with case and hearing information
- ✓ Local recording continues while offline then uploads audio and generates speech-to-text instantly once online
- ✓ Visual verification of recordings for confidence monitoring
- ✓ Simplify ordering and automate delivery of court records
- ✓ Sealing enables secure restriction or release of portions of court records
- ✓ Facilitates efficient end-to-end workflows and reduces administrative bottlenecks

Future-Ready Justice. Real-World Results. Secure by Design.
